

### **Information on data storage**

We assure you that your data will be treated confidentially, stored securely, used exclusively within the Department of Developmental Psychology at the University of Konstanz and not passed on to third parties. Access to the data will only be granted to a clearly defined group of employees of the Department of Developmental Psychology who are responsible for recruiting study participants.

By submitting your data, you are not committing to participate in our studies. You are merely giving us permission to contact you. If we contact you for a study, you are of course free to decide whether you wish to participate. If you agree to participate, we will save the date and time of your study appointment.

On the actual study date, you will receive a separate briefing on the study content and data collection. Your consent to participate in the study will be obtained separately for each study. Your child must also give his/her consent. If your child does not consent to participate in the study, this will not result in any disadvantages for you or your child. Each study can be paused or terminated at any time without consequences and without giving reasons.

You can request the deletion of your personal data at any time with immediate effect. To do so, please send an e-mail with the subject "Delete" to **entwicklungspsychologie@uni-konstanz.de**.
